Education

National Taiwan University Taipei, Taiwan

M.S. in Computer Science and Information Engineering GPA: 4.27/4.30 Feb. 2026 – Jan. 2028 (Expected)

B.S. in Computer Science and Information Engineering GPA: 4.23/4.30 Aug. 2022 – Jan. 2026

Minor in Mathematics

Relevant Coursework: Algorithms, Operating Systems, Compiler Design, Computer Architecture.

Skills: C, C++, CUDA, Python; basic Rust. TOEIC: 945/990.

Course Projects

TLS Chatroom Computer Networks Final Project

- Built a multithreaded C++ server with a worker pool to handle at least 10 concurrent clients.
- Secured messaging and file upload/download with OpenSSL and TLS 1.3.

Prompt Rewriting with Iterative DPO Fine-Tuning Applied Deep Learning Final Project

- Designed iterative DPO training from sampled rewrites ranked by guard evasion and relevance.
- Improved on direct generation with judge-guided selection; results carried over to unseen prompts.

Experience

Synology Inc. New Taipei, Taiwan

R&D Intern Jul. 2026 – Aug. 2026

- Investigated the Linux storage stack and its disk error-handling mechanisms to understand how failures are surfaced for diagnosis.
- Built an internal disk diagnostic tool to automate error analysis and reporting.

Lab Experience

Wireless Networking and Embedded Systems Lab (NTU) Taipei, Taiwan

Master's Student Feb. 2026 – Present

- Surveying NAND flash lifetime and in-flash computing papers to identify AI research directions.

Institute of Information Science, Academia Sinica Taipei, Taiwan

Undergraduate Research Intern Jul. 2024 – Aug. 2024

- Studied handwritten mathematical expression recognition with senior researchers, examining autoregressive, Transformer, and Mamba models in PyTorch.
